IELTS SPEAKING PART 1 SAMPLES

Speaking Part 1

1. Do you usually eat fruit and vegetables everyday?

Yes, I do. Actually, I frequently add fruit and vegetables to my daily meals, because they are good for my overall health and body. The role they play in your meals is just as crucial as that of protein and

starch. Without the intake of fruit and vegetables, you cannot hope to eat a balanced diet.

2. What kind of fruit do you enjoy the most?

Well, I'm quite into juicy fruits like lemonade, orange or pomegranate. I always make a cup of lemonade in the morning to refresh my body. In fact, almost every kind of fruit suits my taste. Besides, I also like versatile fruits like avocado or pineapple, which can serve both as a kind of fruit and an ingredient in your daily meal.

3. Did you enjoy the same kind of fruits when you were a child?

As I have said, I have no specific favorite kind of fruit at all, so when I was a child, I enjoyed all the fruits provided in my meals. I did not get fed up with any kind of fruit, because my mom always tried her best to change the menu of fruit and vegetables everyday, in order to make sure that I had a diet rich in fibre and vitamins and low in fats and sugar.

Speaking Part 1

4. Are there any fruits or vegetables you don't like?

Well, because I am allergic to bell pepper, I never use it. I don't know the reason why, but I cannot stand the smell of bell peppers, whether they are raw or cooked with food. Even though I am in love with pizza, I cannot eat the pizza garnished with bell pepper. I guess that is the only kind of vegetable that I do not enjoy eating.

Speaking Part 1

5. Do you prefer to eat fruit or vegetables?

I think I am more in favor of fruit as compared to vegetables. Fruits seem more appealing in terms of appearance, color and odor. Interestingly, I eat fruits as a way to relieve stress, while most people eat chocolates as their preferred comfort food.

6. Do most people eat vegetables in your country?

Yes, they do. Almost every meal has rice or potatoes and also at least one other kind of vegetable as well, such as tomatoes, cabbages, carrots, green beans, etc. Unlike Western countries, Vietnamese even use raw vegetables in their meals. Quite a lot of people prefer chicken or beef to vegetables but at least they always include a small portion for vegetables for a nutritious meal.

Fruit

1. What's your favorite vegetable and fruit?

I like almost all fruit and vegetables except for the ones that just disintegrate when I bite into them. I'm following a diet rich in fibre which contains a lot of vegetables and dried fruit and I really enjoy it.

2. How often do you eat fruit?

My family are big fruit eaters. And I'm no exception. We eat fruit every day, several times per day. But nowadays, we are scared of all the chemical preservatives used to preserve its shelf life, so we eat it less than before.

3. Are there any special fruits in your hometown?

I'm not very sure. I think mangoosteens are specific to the South East Asia region. The flesh of the fruit is absolutely heavenly, soft with a sweet and sour taste, and it makes a light and pure refreshment.

4. Should we eat vegetables everyday?

Half our diet at the bare minimum should be vegetables and fruit, to provide ourselves with a healthier diet. Vegetables not only provide a variety of flavours, but a largely vegetarian diet is low in fat, unlike the junk food which is popular among many young people these days.

Jewelry

**1. Do you wear any jewelry?
Why or why not?**

I have an allergy, so I only wear a watch, other than that I don't wear any jewelry, no necklaces or bracelets or anything.

2. What kinds of jewelry do people in your country wear?

Vietnamese people love simple and sophisticated things, and it shows in the jewelry they regularly wear. So you can say that Vietnamese people wear all types of jewelry, and I think there has been a revival of interest in more classical styles.

3. Would you ever buy a piece of jewelry? Why or why not?

I have a habit of collecting all kinds of jewelry if they are works of craftsmanship, although I cannot wear them. I've always had an interest in the trade in antiques, so if I see a piece of jewelry that is both old and beautiful, it's hard to resist buying it.

4. What kind of jewelry do you like to see on other people?

I love seeing girls with long necklaces that evoke a modern boho feel, and boys with classical wrist watches to match a suit. I think they are quite attractive with those accessories.

SPEAKING
PART 1

Trees

1. Do you like trees?

I really like trees. An ideal day for me would be when I could lie under the beautiful, cool shade of a big oak tree, enjoying the breeze, listening to the the amazing sound of birds chirping, and not having to worry about anything at all.

2. (Similar to above) Do you like (to go to) the forest (or, a forest)?

I have never been to a forest before, so I would love it if I could go to one. I have always enjoyed watching TV programmes about the wilderness ever since I was a kid. Being able to go to a forest, and I mean a primeval, um, an ancient one, would be paradise for me.

3. Is there a forest near your hometown?

Unfortunately no. My hometown is a city that doesn't have a beach, let alone a real forest.

4. (Possibly) Would you like to live in a place that has lots of trees?

I would love it, I'm not kidding. I would adore it! In fact, currently I'm living on the outskirts of Toronto, surrounded by lots and lots of trees and it feels good every day to wake up early, get out of the house and go for a walk while breathing in the fresh air and taking in the amazing scenery.

**SPEAKING
PART 1**

5. Where can one find trees (or forests) in your country?

Trees are planted almost everywhere, but for forests I guess you need to do some research. There's a place that is called Cuc Phuong National Park in Northern Vietnam, and there are some other protected forests in different parts across Vietnam as well.

6. Do you think places with trees attract more visitors than places with few trees?

I don't know about other people, but I would definitely choose a place full of trees over one which has none. Or maybe other people would make the same choice as me: isn't it nice to feel at one with nature and to be able to immerse yourself in greenery and the fresh open air?

7. Did you ever (like to) climb trees when you were a child?

As a matter of fact, I did. There was a lychee tree at my grandparents' house in the countryside - it was cut down several years ago - and I used to climb it every time I visited them.

8. Have you ever planted a tree?

Let's say I have, although it's not technically a tree. When I was in grade 4, I had an assignment in which I needed to plant something and bring it to class. I chose to plant some beans, although, sadly, it fell through - the rats just waited until the right moment and gobbled them all.

SPEAKING PART 2

You should say:

- What the weather is like
- Why you like this season
- What activities you usually do during it
- How different kinds of weather would affect people

(What the weather is like)

Today, I would like to describe the summer, which is the season I love the most.

(Why you like this season)

There are a wide range of reasons why I **give preference to** this season. Firstly, the **monsoon** season **falls in** the summer, which means that the **heatwaves** will no longer hit the southern part of Vietnam and I will not have to endure extremely hot days like in March and April

SPEAKING PART 2

Secondly, I do not have to go to school in the summer and I believe that students like me love the summer for the same reason. In the 2-month summer break, I get a great amount of free time at my disposal and do various activities in which I am interested.

(What activities you usually do during it)

Since I am **up to my ears** in work during the school year, when the school year is about to **come to an end**, the first thing that **springs to mind** is travelling. **Going on a holiday** in an ASEAN member country is a tradition for me and my cousins.

SPEAKING PART 2

Two years ago, we went to Thailand and last year we went to Malaysia and Singapore. Moreover, a great number of movies about the summer are released such as the one which has emerged as one of the most widely-liked movies recently, named "Nhằm mắt thấy mùa hè", which is Vietnamese for "Summer through closed eyes".

(How different kinds of weather would affect people)

Actually, the weather is unpredictable. One minute, there may be lots of sunshine and the temperature may be 33 degrees Celcius, but the next minute thunderclouds will fill up the sky and it will **rain cats and dogs**. This unpredictability means people can't be well prepared. Also, rains cause floods all over the city, which causes engine damage and makes vehicles travel **at a snail's pace**. Despite my love for the summer and the rains, I cannot deny that they are bothersome sometimes.

TIME MANAGEMENT

1. How do you organize your time?

As a student, I have to meet tons of deadlines at university as well as complete the tasks assigned in my part-time jobs and clubs. Therefore, it is pivotal that I schedule my time reasonably to ensure I have enough time for everything and avoid procrastination. Personally, I create an online timetable that can be easily adjusted to keep myself on track and make sure that the amount of time allocated to my studies, my jobs and my leisure time is well-balanced.

Speaking Part 1

2. Do you think people organize time in the same way?

I'm not too sure about that, it varies according to age group I suppose. For example, students would usually invest a substantial proportion of their time in studying, finishing school assignments and

doing hobbies. In contrast, the majority of an adult's time would be devoted to working and socialising with their colleagues while less is spent on recreational activities.

Speaking Part 1

3. Do you think it is important to be on time?

Certainly. Firstly, punctuality indicates respect and hence, is extremely important, especially in the context of business and education. When we have an appointment with a business partner or simply go to class or sit an exam for instance, we have

to be on time to express our appreciation to our partners and our teachers. Moreover, it shows that we are capable of taking care of ourselves and feel a sense of accountability in whatever we do.

Speaking Part 1

4. How do you feel when you are late for an appointment?

Needless to say, I would be profoundly apologetic if that were to happen. As I have said, turning up late might give out the wrong signal that we don't respect the people we'll be meeting, which is exactly what I wouldn't want

them to think. It also hints that I may lack professionalism and self-discipline, so I would be utterly ashamed and sorry whenever I failed to be punctual.

Speaking Part 1

5. How do you feel when others are late?

That's interesting. Well, for formal meetings like job interviews, conferences or in-class presentations, I always feel great disappointment when people show up late and even throw a fist if it's by too much. Yet, if I were to have a simple chat with my friends, I

wouldn't mind giving them a few extra minutes. Ofcourse, in both cases, I would expect a justifiable reason for their lateness and would probably let it slide if the excuses were understandable.

FILMS

1. Do you like to watch films?

I absolutely love watching movies. It is a way to experience how others live. Each of us can only have one life but we can experience so many different lifestyles in movies. It is kind of temporarily putting oneself into another world.

2. Do you prefer foreign films or Vietnamese films?

I'm much more into imported films rather than domestically produced ones, because of a thing called cultural exposure. People in different countries have different cultural norms and ideas that come across in their film-making. To me, that's important for broadening our horizons.

Speaking Part 1

3. How often do you go to a cinema to watch a movie?

I'm not really keen on watching films in the cinema. Therefore, I only go there when I have to meet my friends, or sometimes when there is a blockbuster that I want to see immediately.

4. What kinds of movies do you like best?

I like adventure ones. They excite me, they keep me in anticipation, waiting to see amazing visual effects, hear great soundtracks, cry, be scared, laugh, and think.

Speaking Part 1

5. Do Vietnamese people like to go to a cinema to watch a film?

I would say yes. I can see that movie theaters have become an important part of Vietnamese life, and cinemas are packed whenever blockbusters are released. People like to go to a cinema to watch films since they can enjoy the lively sound and images on the big screen and spectacular special effects always have a wide appeal to audiences.

WATCHES

1. How often do you wear a watch?

Since childhood I have had an affection for watches, so I wear my watch all the time. In fact I'd feel naked without my watch. But I usually reserve nicer watches or the ones with sentimental value for special occasions or when I wear luxurious clothes.

2. What was your first watch like?

I developed my affection for watches with a little cute Mickey Mouse dial shaped watch. And I guess everyone around my age used to own one like that as it was quite in at the time.

Speaking Part 1

3. Do people still wear watches in your country?

There are lot of watches being manufactured or imported and sold in my country since there are tons of people who love wearing them. Some would love wearing them for their utility while others would prefer to wear them as an accessory.

A black and white portrait of Leonardo DiCaprio. He is looking down, with his hands clasped in front of him. He is wearing a light-colored, long-sleeved button-down shirt. On his left wrist, a dark-colored chronograph watch with a metal link bracelet is visible. The background is dark and out of focus.

Speaking Part 1

5. Did you receive any watch as a gift when you were a child?

Yes, the one I mentioned above, the Mickey Mouse dial shaped watch. My father recognised my enthusiasm for watches and he gave it to me as a birthday gift when I was about 7. I remember jumping around because of the excitement.

Family

1. How often do you meet with your family?

It's normally once a month. At present I'm studying and working in another city, which is quite far from my hometown, so I can only set aside time for my family at the end of the month, because of the distance and heavy workload, you know.

2. How do you spend the time with your family?

We often spend quality time together on eating scrumptious meals prepared by my mother, talking with each other while enjoying our favorite delicious foods.

It's a precious time when we can momentarily get away from the hectic whirlwind of daily activities.

3. Do you want to live with your family in the future?

I'd prefer we live in the same city, so that we could take good care of each other, while making sure our family's bond is secure and will not suffer from potential discrepancies in our individual lifestyles or the generation gap.

Speaking Part 1

4. What activities do your family like doing together?

My family often gather around the table enjoying a cozy meal together, communicating and sometimes busting into laughter because of my father's humorous stories. We're also particularly into family game nights, when we huddle together to play cards or other family favorites.

5. Are you close to of your family members?

Most of them. Actually I'm a little bit more distant with my brother as compared to other members. We have personality conflicts, and different viewpoints so we often have arguments over even the smallest things.

Speaking Part 1

6. How has your family influenced you?

My family has definitely shaped who I am now. They have imprinted on me proper principles like respect, moral values and good manners. I have also inherited humbleness from my mother, and determination and patience from my father.

7. Do you want to be married or to be single in the future?

Yes, I do want to get married. We all ultimately find our true love in life, you know, and marriage is the ultimate commitment that we can make to our soulmate. Moreover, I want to build a loving and supporting home for my children like my parents have done for us.

Celebrity / Pop Stars

1. Who is your favorite celebrity in Vietnam?

Well, to be honest, I adore quite a number of Vietnamese stars. Regarding music, young and celebrated singers like Toc Tien and Dong Nhi are definitely my top choices whereas if it's acting, veteran actors like Binh Minh or Manh Truong always give a really convincing performance.

2. Do you like any foreign celebrities?

As a matter of fact, yes. I've been an avid fan of Western contemporary pop singers for quite a time now,

especially those who have excellent vocal skills like Adele, Bruno Mars or John Legend. I even created a special playlist on my phone which contains only their songs to listen to whenever I want.

3. Would you want to be a celebrity in the future?

I've never given this much thought but I'd have to say that entering showbiz isn't really the path I'd choose. Rising to stardom means losing a great deal of privacy as well as having less time with family and friends, so I guess I'd prefer to stay as a part of the general public.

4. Do you think we should protect famous people's privacy?

Well, definitely. It's a human right to have your private information kept confidential and to have freedom in whatever you want to do, without being followed by paparazzi all the time. Just because celebrities are public figures doesn't mean their private life has to be exposed to everyone for gossip.

5. How do celebrities influence their fans in Vietnam?

In Vietnam, as in any other countries, admirers consider celebrities a source of inspiration as well as consolation. For example, they might watch videos or read articles about their favourite artists to cheer themselves up when they feel down. Additionally, fans can be affected in the way they behave or dress, since most of these fans are impressionable teenagers who want to appear like their idols.

FRIENDS

1. Do you have many close friends?

I have only one friend I would confide in. I'm quite picky and more importantly, I have a somewhat irrational fear that none of my friends really like me and that I'm just a guy they can barely tolerate and it is hard for me to live in harmony with them.

2. Do you think friendship is important?

There is no doubt that friendships play a vital role in our life. They make our lives interesting and wonderful. They help us develop a sense of sharing whether they are tangible things or just inspirational or motivational words of wisdom.

Speaking Part 1

3. Which do you prefer to spend time with: a friend or spend time alone?

It depends. Normally, I'm more of a loner and generally spend more time in solitude than with friends. But when I'm in a bad mood, loneliness makes me feel isolated from the whole world. These days, I will hang out with my friends

so that sad and unhappy thoughts cannot come into my mind.

4. What kind of people do you like to have as friend?

I find myself attracted to people who are honest and who know how to behave with others. I always avoid making friends with people who have a superiority complex.

Speaking Part 1

5. Do you like face-to-face conversations with people?

Actually I like to talk with cyber friends more than having real-world conversations. I think others observe me a lot, they judge me and hence I become very self conscious and shy away from speaking face to face.

6. Are most of your friends from school or from outside school?

Most of my friends are from high school. People who I met at work or from clubs have less in common with me, whereas at Uni we all shared interests in the same things and subjects.

Speaking Part 1

9. How do people in your country meet others and make friends?

I don't think it particularly matters what country you're from. In every country, you can make friends just by sitting next to someone a few times during class, then a friendship logically happens. Otherwise, you can make cyber friends through social networks like Facebook or Twitter.

10. Do adults and children make friends in the same way?

Adults use self disclosure to develop trust and loyalty among friends

This is quite complicated in practice while children usually use common interests and goals as the basis of their friendships. More importantly, kids have a whale of time with whoever, but adults have to use their time for work and taking care of their family.

11. Do you think it is possible to become real friends with people you meet on the internet?

Of course it is possible to establish real friendships with someone online. What you need in a friendship is truthfulness, reliability, empathy, respect and loyalty. If you're getting all that from your online friends then you can consider them as genuine friends.

Speaking Part 1

7. How often do you meet with your friends?

When I was younger, I used to meet my friends almost everyday. Even friends outside of school were a part of my daily social interactions. But now, as a 23 year old working professional, I barely meet anyone during weekdays. I meet my closest friends only on some weekends. These meetups are sporadic too.

8. What do you and your friends do together?

My closest friends and I have a mutual interest which is we always have a thirst for clothes shopping, so whenever we have time, we will go shopping together until we break the bank. Sometimes when we are out of money, just window shopping is enough.

IELTS SPEAKING PART 2 SAMPLES

Describe a kind of food you eat on a special occasion

You should say

- ▶ What it is
- ▶ How it is cooked
- ▶ Why people eat it or why it is for the special event
- ▶ Explain how you feel about this kind of food

The 4th category: Describe an object/ product/ thing

What it is

I would like to talk about Chung cake, **which** is a traditional and irreplaceable cake of Vietnamese people in the Tet Holidays.

How it is cooked

Main ingredients of the Chung cake are glutinous rice, pork meat, and mung beans wrapped in a square of bamboo leaves or banana leaves that will give the rice a green color after boiling. The sticky rice must be very good and was soaked in water in the previous day. Rice cake is wrapped in square shape, and the wrapping power must be neither tight nor loose. Then the cake will be boiled in about 12 hours by wood.

Why it is for the special occasion

In the ancient conception, the Earth is square, hence Chung cake's shape is square, too, to reflect the Earth shape. Vietnamese people always make and have Chung cake in the Lunar New Year to emphasize the important role of rice and nature in water rice culture.

In contrast to fast food in modern life, the process of making Chung cake is time-consuming and requires the contribution of several people, thus providing an opportunity for family members to bond and come together to celebrate the holiday spirit.

How you feel about it

In my opinion, the Green Chung cake has **an original tasty flavor, which** reminds me of my origin and tradition. I love eating Chung cake with vegetable pickles, **which** brings me unforgettable taste!

How you feel about it

In my opinion, the Green Chung cake has **an original tasty flavor, which** reminds me of my origin and tradition. I love eating Chung cake with vegetable pickles, **which** brings me unforgettable taste!

The only recent development **that made** the lives of the **city dwellers much interesting** is a shopping mall, named **Van Hanh Mall**, **which** opened last year.

Where it is

Speaking of the location, it's **situated** right **in the heart of the city**, in district 5, **which** is **within a stone's throw of my house**, **so** I often go there on weekends to **unwind** after work.

What people can do there

This modern shopping mall has many different areas of entertainment and shopping, **including** a supermarket, a number of coffee shops, fashion stores, **swanky restaurants** and a cinema. **What I particularly like is** a bookstore with a huge collection of books and stationery. It's **well-decorated** with a spacious section for readers to enjoy books. **I have to say**, it's actually **a relaxing reading heaven where** the dream of bookworms like me can come true.

How it improves your local area

Well, this shopping mall has brought great benefits to the residents nearby. As it offers a one-stop solution, it's an ideal place for families and friends to gather together and spend quality time. You see, a lot of people are tied up with working and studying, and this place can become their regular haunt to let off steam and recharge their batteries. As a result, the quality of the city dwellers' lives can be significantly improved.

From that moment, every tourist **couldn't take their eyes off her**, and I was not exception.

Why you thought he/she is beautiful

She had a **comely figure** which was **stem-thin**. Her **curvilinear waist** didn't surprise me as much as her **olive complexion**.

When I came closer, I noticed her **sunrise-gold hair** and her **dainty nose**. It was definitely **love at first sight** for many guys.

When she **broke into a smile**, her **sugar candy-sweet lips**, and her **shiny, halo-white teeth**, all **mesmerized** me.
